

G02T, G04Y, G17K

Chemical resistance natural rubber latex gloves offering a high resistance to water based chemicals.

The Orange Supaweight G02T, Suregrip™ G04Y and Black Heavyweight G17K are designed for use in industrial environments where protection from a variety of water based chemicals is required. With three different styles available including raised or sandblast grip and fluted or longer length cuffs, the range provides the protection that is essential against the potential dangers of contact with hazardous chemicals.
