

Intermediate Design

Rubber dipped coating on an interlock liner.

A new glove offering even better performance for light to medium stress glass handling.

A more natural glove shape delivers a better fit and makes for safer handling.

Crinkle finish provides excellent wet and dry grip on slippery surfaces.

Recommended Usage

- Tiles and ceramics
- Tin plates
- Slippery plastics

Rubber dipped crinkle cut coating on interlock knit liner.

Provides extra protection against sharp edges.

New anatomical glove shape follows the contours of the hand.

A glove that fits better, grips better.

Soft cotton knit liner.

Good cushioning, good cut resistance, good comfort.

More consistent quality than cheaper look-alike products.

Better reliability always means better value.

Packaging

72 pairs per outer.
