

- Breathable fabric
- Kneepad pockets: bottom-loading
- Inherently flame-retardant
- Sustainable Sioen

## Fareins

ECO coveralls, ARC protection (APC1), high-vis class 3

026VN2PF9

Protect yourself against the everyday dangers of your job with this hi-vis coverall with arc protection. The coverall has double stitched reflective FR strips for increased visibility. In this flame retardant anti-static coverall you are protected from heat and metal splashes, but you feel comfortable because of the light, breathable and supple fabric with moisture-regulating and flame-retardant properties. Increase your comfort by inserting knee protection into the knee pockets that are provided and narrow your sleeves for a perfect fit. The Fareins retains its shape as the coverall is shrink and pilling resistant, even after frequent washing.

### Colours

- High-vis yellow/Navy blue (049)

### EU Size

- short: 48-58
- regular: 44-64
- long: 46-56

## Certification

|                                                                                                                                                          |                                                                                                                             |                                                                                                                                 |                                                                                                                                |                                                                                                           |                                                                                                                         |
