Bitter Qualitative Fit Test Kit

Features

Kit includes everything needed to perform fit testing on all Moldex® respirators.

- ✓ Comply with OSHA standards for qualitative fit testing
- ✓ Includes Bitter aerosol, fit test hood, instructions and certificates
- ✓ Respirators sold separately

Qualitative Fit Test Training:

- ✓ Instructional videos below give step-by-step instructions

For some qualified customers Moldex representatives are available to administer on-site qualitative fit test services as well as instruct a customer's own

employees through a Train-The-Trainer program. Contact Moldex here to learn more.
