# E·A·R.

### **PUSH-INS** For Convenience

The new E A R Push-Ins revolutionise hearing protection with more advantages than any other foam earplug. There has never been a foam earplug that is quicker and easier to use than the E A R Push-Ins. No roll down is required; you do not even need to clean your hands, the insertion stem eliminates the need to touch the tip at all.

### **PUSH-INS** For Performance

On insertion the E A Rform foam expands in the ear canal to create a comfortable seal against noise and provide optimal protection-**SNR 38**. The plugs stay positively but gently seated with a low-pressure seal on the ear for hour after hour.

### **PUSH-INS** For Comfort

The patented E A Rform foam tip is shaped and sized to mold comfortably fitting virtually every size ear canal. This unique foam actually softens and becomes more pliable with body temperature, the seal and comfort increases the longer the plugs are worn.

**PUSH-INS are available with or without a cord.**

### **ORDERING INFORMATION**

CODE	DESCRIPTION	PACKAGED
EX-01-020	Disposable Push In Corded	100 Pairs per Dispenser
EX-01-021	Disposable Push In Uncorded	100 Pairs per Dispenser
EX-01-022	Disposable Push In Uncorded	200 Pairs per Dispenser
