#### Product Use

Banded Earplug, Foldable

**Features & Benefits**

**Feature**

Semi-aural protection, super soft pods rest outside the ear canal opening. Multiple position wear: over-the-head, under-the-chin or behind-the-neck provides flexibility in wear. Compact, folding design easy to store in pocket. Ideal for workers who are exposed to intermittent noise.

**Benefit**

For workers who are exposed to intermittent or low levels of noise, Howard Leight's PerCap banded earplugs offer an alternative to earplugs and earmuffs. From its compact design to semi-aural protection, PerCap offers reliable protection from noise with ear pods that rest outside of the ear canal opening. PerCap can be worn in three positions and folds down for pocket-sized storage, ideal for supervisors and other workers who are in and out of noisy areas, and need easy access to hearing protection

Maintenance

**Life Cycle**

These earplug pods must be disposed of and replaced after each wearing.

**Storage Information**

All earplugs should be stored before and between usages in a way that protects them from dirt, grease, and other contaminants.

**Care Instructions**

Disposable earplugs are made of either TPE (Thermoplastic elastomers) or polyurethane foam. Washing and cleaning of disposable earplugs are not recommended. These plugs must be disposed of and replaced after each wearing. Excessive moisture reduces the attenuation and slows down the foam recovery which may lead to improper fit.
