DOCTOR OR EMERGENCY MEDICAL CARE.

Eye contact Rinse thoroughly with plenty of water, also under the eyelids. Keep eye

wide open while rinsing.

Skin contact Remove contaminated clothing and shoes. Wash off with soap and

water.

In case of exposure to intense concentrations of vapours, fumes or

spray, transport the person away from the contaminated zone, keep

warm and allow to rest.

Ingestion If swallowed, do not induce vomiting - seek medical advice.

Risk of product entering the lungs on vomiting after ingestion. In this

case, the casualty should be sent immediately to hospital.

4.2. Most important symptoms and effects, both acute and delayed

Eye contact Burning feeling and temporary redness.

Unsuitable Extinguishing Media Do not use a solid water stream as it may scatter and spread

fire.

5.2. Special hazards arising from the substance or mixture

Special Hazard Incomplete combustion and thermolysis may produce gases of

varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot. These may be highly dangerous if inhaled in confined spaces or at high

concentration.

5.3. Advise for Fire-fighters

Special protective equipment for

Fire-fighters

flames in immediate area).

Do not touch or walk through spilled material.

6.2. Environmental precautions

General Information Prevent further leakage or spillage if safe to do so. Dike to

collect large liquid spills. The product should not be allowed to enter drains, water courses or the soil. Local authorities should

be advised if significant spillages cannot be contained.

6.3. Methods and materials for containment and cleaning up

Methods for cleaning up Use non-sparking hand tools and explosion proof electrical

> Contain spillage, and then collect with nonequipment. combustible absorbent material, (e.g. sand. diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for safe handling

Product: White Spirit BS 245

Advice on safe handling For personal protection see section 8. Use only in well-

ventilated areas. Do not breathe vapours or spray mist. Avoid

contact with skin, eyes and clothing.

Technical measures Ensure adequate ventilation.

Do not spray at high pressure (> 3 bar).

WHILE MOVING THE PRODUCT:. To avoid ignition of vapours by static electricity discharge, all metal parts of the equipment must be grounded. Do not allow splash loading and ensure that the product is poured slowly, particularly at the

beginning of the operation.

Prevention of fire and explosion OPERATE ONLY ON COLD AND DEGASSED TANKS IN

VENTILATED PREMISES (TO AVOID RISK OF

EXPLOSION).

Handle away from any source of ignition (open flame and sparks) and heat (hot manifolds or casings). Do not smoke. Use explosion proof electrical equipment. Take precautionary measures against static discharges. Do not use compressed

air for filling, discharging or handling.

Design installations (machinery and equipment) to prevent burning product from spreading (tanks, retention systems,

interceptors (traps) in drainage systems).

Hygiene measures Ensure the application of strict rules of hygiene by the

personnel exposed to the risk of contact with the product.

When using, do not eat, drink or smoke.

Regular cleaning of equipment, work area and clothing is recommended. Do not dry hands with rags that have been contaminated with product. Do not use abrasives, solvents or fuels. Wash hands before breaks and at the end of workday.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures/Storage Conditions:

Design the installations in order to avoid accidental emissions of product (due to seal breakage, for example) onto hot

casings or electrical contacts.

Storage installations should be designed with adequate bunds so as to prevent ground or water pollution in case of leaks or spills. Use explosion proof electrical equipment. Keep in a bunded area. Keep in a dry, cool and well-ventilated place. Keep away from open flames, hot surfaces and sources of ignition. Ground/bond containers, tanks and transfer/receiving

equipment. Store at room temperature.

Keep containers tightly closed and properly labelled.
