

UPRIGHT VACUUM CLEANER

CV 38/2 Adv

The Kärcher CV 38/2 upright vacuum cleaner for professional applications features separate brush and suction motors, to deliver superb cleaning performance. Ideal for cleaning large areas in shops, offices, restaurants and hotels quickly and efficiently. The roller brush motor has an overload protection, preventing damage to the motor should a blockage occur.

Technical Specification

Upright Vacuum Cleaner	CV 38/2 ADV
Air flow rate (l/s):	48
Maximum motor rating (W):	1050
Container capacity (l):	5.5
Sound pressure level (dB):	67

Indicator light

- The indicator light shows when the roller brush needs to be adjusted to achieve optimum cleaning results.

Easy brush replacement

- Tool-free, easy-swap hard and soft bristled brushes ensure optimum results on all floor types.

Flexible cleaning option

- The easily removed, stretchy suction hose enables quick and simple clearing of blockages.

Patented centrifugal coupling

- For longer service life: Kärcher's coupling innovation protects the whole brush head from being overloaded, protecting you from unnecessary service costs.

VACUUM CLEANER ACCESSORIES

Maximising the potential of your Kärcher machine

Filter Bags

Three different filter bag types available: paper bags for dust class M, tear-resistant fleece bags and fabric bags which can be washed and re-used.

Gangway Tool

Enables large hard floor areas to be cleaned quickly and efficiently. Rubber lips and brush strips supplied as standard for wet or dry pick-up.

Nozzle Set

Consisting of crevice tool, upholstery tool, suction brush and storage clip, this kit keeps essential nozzles tidy and close by.

Detail Brush

A suction brush designed for cleaning smaller, hard to reach areas. With plastic or natural bristles to suit the surface being cleaned.

Rubber Suction Tool

This soft rubber tool is ideal for thorough, damage-free cleaning of sensitive surfaces.

Pipe Dusting Nozzle

Designed exclusively for fast and effective cleaning of pipe work which can be difficult to clean with normal tools. Two sizes available to suit different pipe diameters.

Radiator Brush

Designed for easy cleaning behind radiators and other narrow spaces. For use with a crevice tool.

Upholstery Nozzle

For easy, thorough cleaning of upholstery, curtains and car seats.

Filters

HEPA filters, PES filters and exhaust filters are designed to suit specific applications and the dust type being vacuumed.

Repair Kits

Suction hose repair kits can mend damaged or split hoses quickly, saving time and money. Suitable for a wide range of suction hoses.

Suction Hoses

A wide range of hoses to suit different applications, from basic extension hoses to electrically-conductive or oil resistant hoses, in lengths from 2.5m to 10m. Kärcher's clip system makes the changing of hoses fast and simple.

Couplings

A wide range available, including connecting sleeves to connect more than one suction hose together and V-piece adapters for using two suction hoses at once.

Bends

A range of bends in metal, stainless steel and plastic, including an electrically-conductive version to reduce electrostatic charging.

Suction Tubes

A range of tubes in metal, stainless steel and plastic, including a telescopic version with adjustable length from 0.6m to 1m.

Accessory Kits

Versatile accessory kits designed for specific trades and applications including plumbing, building and vehicle valeting. The power tool kit is designed to work with Te machines when using equipment such as electric sanders.

All-Purpose Tool

Available from 300mm to 450mm for fast and effective cleaning of hard floors. Rubber lips and brush strips supplied as standard for wet or dry pick-up.

Car Cleaning Nozzle

A 90mm wide plastic nozzle designed specifically for fast, thorough cleaning of car, van and truck interiors. Effective in hard to clean areas such as under seats, upholstery seams and storage areas.

All-Purpose Brush

Natural bristles provide excellent cleaning results for any hard surface. Versions available to fit all models in the Kärcher range.
