

Technical Data Sheet

**Product Reference: Arco Eurus
3G4665 – Clear**

- Lens UL1,2 CT 1
- Frame U1,2 CT 1M

EN ISO 16321-1:2022/
A1:2025

UV400 protection with anti-scratch & anti-mist coating
Clear lens provides maximum light transmission with impact protection for indoor use.

Application: Indoor Assembly, Construction, DIY, Agriculture, Mining, Military, Medical/Dental, and Lab

Product weight: 28 grams
Resilient & durable protective eyewear for all day wear
10-base highly-curved lens with side shield provides perfect impact protection against high-speed particles
Wraparound temple shape with openings reduces weight and increases pliability to perfectly secure on different head sizes with pressure-free fit.
TPE soft material temple tips provide non-slipping fit and feather-like touch.
Integrated frame without additional frame component.

**Product Reference: Arco Eurus
3G4670 – Smoke**

- Lens G2 CT 1
- Frame G2 CT 1-M

EN ISO 16321-1:2022/
A1:2025

UV400 protection with anti-scratch & anti-mist coating
Smoke lens with marking G2 is one of the most-popular tinted lenses for outdoor use. It can provide glare protection on bright days with sunlight but does not distort your eyes for true colors.

Application: Construction, DIY, Agriculture, Mining, Military, Driving, Fishing, Golfing, Cycling, Running, Rocket sports / Tennis, Skiing, Surfing/ Sailing
