WypAll® L10 professional wiping paper products are designed for the specific environments where they will be used, helping enable you to deliver on your wiping task every time. These compact disposable paper wipes are 1 ply and designed for light duty wiping in areas such as food preparation and service surfaces. The compact design of this wiping paper is designed to be small, portable and easy to handle. This format's ease of use helps to support hygiene standards and compliance while also saving space. Embossing technology in the wiping paper gives these cleaning wipes a great balance of performance and value. This WypAll® wiping paper is designed to be used once with detergent or disinfectant. These dry cleaning wipes have been tested as compatible for use in spray and wipe application with peracetic acid, hydrogen peroxide and quats (quaternary ammonium compounds). Spray and wiping compatibility helps to ensure workers can wipe own work spaces, vehicles, desks, seating and food prep areas before and after use. Spray and wipe also helps to enable production workers to clean down/sanitise individual workstations before hand-off to next shift. For environments where fully saturated wiping is a requirement, these WypAll® wiping rolls are tested as compatible with soap/detergent. Always follow manufacturers instructions for dilution, application and contact time. These WypAll® Light Duty Wiping Paper rolls are also available in white (7380). These towel rolls are compatible with our WypAll® small roll dispenser (7041). Individual sheet size 25cm (L) x 34cm (W).
