

Technical Data Sheet

Product Description:

Arco 1.8m Twin Fall Arrester Block

Product Reference:

4G0022 – Arco 1.8m Twin Fall Arrester Block

Product Details:

Striking the ideal balance between lightweight and durable, this Arco 1.8m twin fall arrester block is housed in a robust casing to withstand a tough working day. The inbuilt fall indicator helps with quick visual checks while the triple-action carabiner and two scaffold hooks provide quick and secure connections.

- Compact and lightweight fall arrester block with 1.8m self-retracting lanyard
- Inbuilt fall indicator for easy inspection
- Durable casing for great strength and performance
- Fitted with a dual connector to pair the fall arrest lanyards.

Maximum capacity: 150kg

Maximum Lifespan 10 years
