A superior chemical service hose, built to meet the demands of highly aggressive media.

Construction: Inner helix – 316 stainless steel

Hose liner – PTFE inner liner

Hose wall – multiple plies of polyester and polypropylene films

Outer helix – high tensile galvanised carbon steel

Applications: Transport hose for aggressive media

Properties: Lightweight and flexible

Suitable for a wide range of chemicals (please check chemical compatibility)

Temperature range: -40°C to +121°C

Standard length: 40 metres
