

Removable insulated, or heated and insulated jackets for the Optiwash®

Retrofittable jackets designed for use with the Optiwash self-contained eye wash when located outdoors. The insulated jacket offers protection both from the the frost and solar radiation, while the heated jacket provides freeze protection down to -34C (-30F).

The Optiwash is ideal where a continuous supply of water is not available. The 38 litre, wall-mounted eye wash station delivers a controlled flow of a minimum 1.5 litres per minute of potable water for 15 minutes, meeting EN15154 and ANSI Z358.1-2014 requirements.

Also available with ATEX approved heating

Supplied with a wall mounted ATEX approved junction box for client's electrical connection.

Voltage 230V - 110V available upon request
