

Swarfega® PROTECT PRO

Pre-work hand barrier cream

PRODUCT DESCRIPTION

Universal, fragrance-free pre-work skin cream that protects hands against oil and water based substances such as oil, grease, lubricants.

WHERE TO USE

For all trades people on the go.

INSTRUCTIONS FOR USE

Apply one shot to clean and dry hands before contact with contaminants. Rub in well.

	DESCRIPTION	BENEFITS
FEATURES	Unique triple action formulation	Provides protection against water-based and oil-based contaminants; improves grip when using hand-held tools; and helps provide comfort under gloves.
	Proven universal purpose protection	Suitable for a wide range of working environments with exposure to varying types of water and oil based substances.
	Absorbs quickly	Leaves a pleasant, non-tacky protective film on the skin to encourage regular use and not affect dexterity with hand held tools.
	Skin Hypoallergenic	This product is tested by an independent dermatologist using Human Repeat Insult Patch Tests (HRIPT) to verify and confirm this product does not irritate the skin and has very low allergenic potential.
	Designed for Sensitive Skin ¹	This product is formulated to reduce allergenic potential, which means the product is perfume-free and dye-free, skin hypoallergenic and ECARF Certified ³ .
INGREDIENTS	Perfume-Free and Dye-Free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
	Contains Zinc Salicylate	An astringent agent which is known to tighten skin and included to improve hand grip. Also helps provide comfort under gloves.
	Contains Glycerin	A skin moisturiser to help prevent drying and leave the skin feeling smooth after use.
	Formulated close to the skin's natural pH (4.0-6.5)	Helps minimise disruption from product use to the skin's acid mantle, a natural layer which acts to help support the natural bacteria balance.
	Silicone-free	Reduces the risk of Silicone related compatibility issues, if in contact with surfaces prior to the application of paint or surface coatings.
CERTIFICATES/COMPATIBILITY	Certified by HACCP International ²	Certified by HACCP International as being suitable for use in facilities that operate a HACCP based food safety programme (Food Zone Classification SSZ) when used as directed. Food handlers should use product only in accordance with label instructions and product should not come directly into contact with food or items that contain food.
	ECARF Certified ³	This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. For more information go to http://Ecarf-siegel.org/en/about-seal .
	Suitable for food facilities	The product has been independently evaluated and proven to not have the potential to taint food. Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food or items that contain food.
	Compatible with rubber production processes	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanisation process.
	Proven glove compatibility	Suitable for use with latex, vinyl and nitrile gloves.

¹The product does not guarantee a complete absence of risk of an allergenic reaction. Allergy sufferers should always refer to the ingredient list before using the product.

Swarfega® PROTECT PRO

Pre-work hand barrier cream

STATUTORY REGULATIONS

This product is a cosmetic product regulated by and complying in GB with the GB Cosmetics regulation (Schedule 34 of the Product Safety and Metrology etc. (Amendment etc.) (EU Exit) Regulation 2019 (as amended)) & in ROI/Ni with EC No 1223/2009 (as amended) on Cosmetic Products.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from <https://www.scjp.com/en-gb/safety-data-sheets>

SHELF LIFE

This product has a shelf life of 30 months from the date of manufacture when stored unopened at room temperature.

SUITABLE FOR USE IN FOOD HANDLING AREAS

When used as instructed, Swarfega® PROTECT PRO does not influence the quality of foodstuffs. The product has been independently tested according to Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007 and has been proven to not have the potential to taint food, thereby supporting and meeting HACCP standards for impact on the smell and taste of foodstuffs.

CERTIFICATIONS

HACCP International Certified

This product and the dispensers it is to be used with have been certified by HACCP International as being food-safe hand hygiene products suitable for use in facilities that operate in accordance with a HACCP based food safety programme in Food Zone Classification SSZ (Splash or Spill Zone). This means products are suitable for use in food handling areas such as kitchens, production areas and processing areas, but not suitable for coming directly into contact with food or items that will touch food. HACCP International's evaluation and certification is strictly confined to matters of food safety or the operation of a HACCP based food safety programme. Whilst all reasonable care is taken by HACCP International in its evaluation of the product(s) or services(s) described herein, HACCP International does not guarantee that every food safety risk in every application has been identified. No guarantee is offered or implied in the issuing of this statement.

ECARF Seal of Quality

This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. Cosmetics can receive the seal of quality for meeting the following criteria:

1. Quantitative risk assessment of the product ingredients with respect to their potential for skin sensitisation, taking into account their specified conditions of use and amount.
2. Medically supervised clinical trials by volunteers with atopic dermatitis.
3. Approved system of quality control management.

For more information go to <http://ecarf-siegel.org/en/about-seal>.

This product is designed for sensitive skin and is formulated to reduce its allergenic potential¹

¹The product does not guarantee a complete absence of risk of an allergic reaction. Allergy sufferers should always refer to the ingredient list before using the product.

INGREDIENTS

AQUA (WATER), ISOPROPYL PALMITATE, POLYGLYCERYL-3 METHYLGLUCOSE DISTEARATE, GLYCERIN, CETEARETH-25, CETEARYL ALCOHOL, SODIUM BENZOATE, ZINC SALICYLATE, XANTHAN GUM, DEHYDROXANTHAN GUM, LACTIC ACID, PHENOXYETHANOL, BIOSACCHARIDE GUM-4.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

PRODUCT SAFETY ASSURANCE

Product Safety Assessment

The product has been assessed by an independent toxicologist and is declared safe for intended use on hands of adults aged 16 years and above when used as directed, meeting all relevant regulatory requirements.

Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in semi occlusive, 48 consecutive hour application models, shows the product to be non-irritating in use.

Skin Hypoallergenic Risk Assessment

The formulation has been assessed by an independent toxicologist to be formulated in such a way as to provide either minimal or no risk of provoking allergic skin response and thus meets the requirements for being described as 'Hypoallergenic' (Delphic Solutions Ltd, UK).

Allergy sufferers should always refer to the ingredient list before using the product.

COMPATIBILITY TESTS

Glove Compatibility

In independent testing, the use of Swarfega® PROTECT PRO cream in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

EFFICACY TESTS

Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 6 week Human Repeat Insult Patch Test (HRIPT).

Barrier Property Test

The protective action of Swarfega® PROTECT PRO cream formulation was tested using the modified Tandem Repetitive Occlusive Irritation Test (TRIT), a modern skin physiology in vivo test. The model irritants are occlusively applied to the skin twice a day for 30 minutes over a period of four days. The resulting skin irritation is defined and compared with the help of the visual score (VS); the resulting barrier damage with help of the transepidermal water loss (TEWL). Swarfega® PROTECT PRO cream significantly reduces the irritation effect of the test irritants compared to unprotected skin.

Barrier Property Test
Repeated Occlusive Irritation 5 Day Test

NB: Skin exposure to potentially harmful substances and environments should be avoided through the implementation of safe working practices and the use of appropriate Personal Protective Equipment. Where skin exposure cannot be avoided, it is recommended to use an appropriate skin protect cream as part of a complete skin care programme to help promote healthy skin conditioning.
