

TECHNICAL DATA SHEET

PURE POLYPROPYLENE
SORBENT

**Absorption
Capacity in Litres: 79L**

arco®

ARTICLE CODE

5656208

All absorbents are calculated in accordance with BS 7959-2:2000 standard, including colour coding of absorbents.

Boom 20cm x 3m length

APPLICATION

WHITE HYDROPHILIC	Absorbs industrial hydrocarbons and derivative products (petrol, oil, diesel oil, benzene, mineral oil, etc...) but not water-based liquids. Do not use on soapy water the absorbent would dive.
POLYPROPYLENE	Outer layer construction is an industrial nylon outer netting, fitted with karabiner clips to form a continuous boom if required. The boom is also fitted with a spunbond sleeve containing a durable draw cord and polypropylene inner.
BOOM	Booms are ideal for containing spills on hard surfaces. They can be linked together, to extend area of containment. Booms are suitable for larger spills, absorbing and containing at the same time.

WHY USE POLYPROPYLENE ABSORBENTS?

Polypropylene absorbents provide:

- Exceptional absorbency (up to 25 times their own weight)
- Selective absorption: 3 types available (Oil Selective - General Purpose - Chemical) allowing you to absorb almost any liquid.

The use and disposal of Polypropylene absorbents saves you time and money:

- Quick and easy to deploy, saving you time
- No dust or mesh to clean-up, saving you time
- They ensure the floor is slip free when used pro-actively, saving you money
- Unlike granules it's easy to see how much you are using, saving you money
- Where legislation allows controlled incineration produces energy and reduces landfill (Ash content is a little as 0.05%) saving you money.

ADDITIONAL INFORMATION

TRANSPORT: No specific regulation, can stand extreme cold, to be kept away from heat > 160°C.

SECURITY: No specific risk. For further information, please refer to the material safety data sheet.

STORAGE: Store in a dry and cool place.

DISPOSABILITY: The absorbents must be disposed of in compliance with the absorbed chemical destruction regulation.

SPECIAL REMARKS

The information contained herein is furnished without warranty of any kind. Users should consider these data only as a supplement to other information gathered by them and must take independent determinations of suitability and completeness of information from all sources to assure proper use and disposal of these materials and the safety and health of employees and customers and the protection of the environment.
