

# CLEAN STEP

## KEY FEATURES

- ① Peel-off layers of adhesive film which effectively attract dust and debris from soles of shoes.
- ② Ideal for entrances, particularly clean areas, such as hospitals or factory-to-office links, where dirt is prone to being walked in.
- ③ Each layer is disposable and peeled off after use. 60 layers form a pad attached to a firm non-slip frame. Refillable after use.
- ④ Protects against bacterial pollution.

⑤ Economical.

## SUITABLE APPLICATIONS

◆Dry, indoor environments.

◆Ideal for **ENTRANCE** areas, particularly for **CLEAN ROOM** areas such as **HOSPITALS** to protect the environment against dirt and bacterial pollution.

◆**FACTORY FLOOR** to **OFFICE ENTRANCES** to protect carpets from dirt and debris.
