

M-Type COBAGRiP Grating Accessory

Enhance stability & safety with the M-type bracket

- The M-type bracket allows for a sturdy installation of your COBAGRiP Grating and enhances stability and safety.
- The robust fastening mechanism is used to ensure that the grating stays fixed in place and can withstand movement.
- The M shape of the clip is ideal for the middle section of your COBAGRiP Grating with two reinforced support arms going over the block gap of the treads to ensure load-bearing capacity
- This easy-to-install accessory allows for quick integration and disassembly, making it adaptable to different structural requirements.
