

## C-Type COBAGRiP Grating Accessory

Utilise the C-type bracket to secure your walkway.

- The C-type bracket is utilised to secure two grating platforms to each other.
- The C-type has two hooks that clip the gaps between separate platforms together to ensure they stay in place when there is movement on the platform.
- The hooking mechanism ensures enhanced safety between GRP platforms and reduces the risk of a section lifting.
- This attachment allows for quick assembly and disassembly, making it adaptable to a variety of structural requirements.

### Parts

Part Number	Size	Colour	Weight (kg)
CCLIP50			0.1
CCLIP38			0.1
CCLIP25			0.1

### Technical Specifications

Material	Stainless steel
