

JACKSON 2 S1 SRC

SIZE RANGE
UK3-13 (EU36-48)

CERTIFICATION
EN ISO 20345:2011

WIDTH FITTING
eeee

The Jackson 2 is a high performance, non-metallic, slip resistant safety trainer offering outstanding protection and comfort. The composite toecap ensures the trainer remains lightweight whilst the suede and mesh upper are both breathable and durable. The Jackson 2 also features a 'Traction Cellular Footbed', which is a full length, ergonomically designed footbed that as well as offering cushioning and improved fit, aids with pressure displacement and weight distribution, maximising wearer comfort for long working days.
