

# UTAH 2 OB E A SRC

SIZE RANGE  
UK3-13 (EU36-48)

CERTIFICATION  
EN ISO 20347:2012

WIDTH FITTING  
eeee

The Utah is a lightweight, antistatic and extremely versatile occupational trainer that due to its durability, comfort and outstanding slip resistance, has earned its place as a firm favourite in many diverse industries.

Flexibility and comfort are enhanced by the combination of the premium leather and mesh upper and the enCounter heel support. This is an ergonomically designed and fully supportive heel counter component that holds the foot in place and provides support for vastly improved comfort all day long.

UPPER

**UPPER**  
Breathable leather and mesh upper, providing excellent durability and comfort.

**LINING**  
Breathable, high quality mesh lining keeping feet fresh all day long.

**FOOTBED**  
The Utah features a special Polyurethane compound midsole layer, which allows for high levels of rebound and impact absorption with each movement or step.

**OUTSOLE**  
The 'Plane 2 Outsole' is a fuel oil resistant rubber outsole that demonstrates outstanding slip resistance which exceeds minimum average SRC requirements by 178%.
