

PRODUCT DATA SHEET

Product Ref: **TG1360**

Ultra-Lightweight X-Dura Polyurethane Coated Glove

Ultra-Lightweight X-Dura PU Coated, Machine Knitted General Purpose Glove with an Integral Elasticated Wrist.

Key Features:

- Touchscreen to the point that if the coating were to wear off, the glove will still be touchscreen compatible.
- The gloves feature an X-Dura Polyurethane coating on the palm and fingers, offering superior dry grip and moderate wet grip. This coating also enhances abrasion resistance and durability.
- Ultra lightweight liner, thin, breathable seamless knitted liner for excellent dexterity and tactility that makes it good for use in more intricate tasks.
- Available in sizes 5-12, an inclusive size range to cater for a wide range of hand sizes.
- Recycled content, 48.0 % RCS certified post-consumer polyamide, certified by Control Union CB-CUC-1371833.
- The TraffiSystem is a straightforward visual way to ensure everyone is wearing the correct hand protection and reduce hand injuries.
- Sustainably balanced, as part of our LXT range, this glove is carbon neutral from cradle to grave, meaning that by purchasing this glove, it will not have any effect on your carbon footprint, either as a company or as an individual.
- The TG1360 is perfect for use in low cut risk environments. The glove has 360o cut protection, so from the back of the hand around to the coating, the cut resistance remains the same.
- Washable, Certified to be machine washed at 40°C/104°F for 5 wash cycles. Alternatively, you can hand wash it – either will improve the glove's cost in use and reduce waste.
- LXT engineering, the individual yarn used to make up the liner has been triple wrapped to provide extra protection and comfort, and also increase the wear life of the glove.

Technical Specifications

Size Range: 5-12

Lining: Nylon: 94% / Elastane: 5%
Copper: 1%

Coating: 100% Polyurethane

Colour: Red/Black

Conditions  

48.0 % RCS certified post-consumer polyamide Certified by Control Union CB-CUC-1371833
