Product Description

Meet the new shape of work with the high energy return of Reebok's FloatZig Safety Men's Black and Grey Athletic Safety Shoe. Why choose between soft and springy? Fast and smooth? Designed to inspire everyone to lace up and get to work, these shoes are built with premium lightweight foam technology in a geometry that enhances cushioning, energy return and a smooth transition to give a unique underfoot experience while on the job.

Product Features

EN ISO 20345, Composite Toe, XTR® Composite Toe, ESD, Slip Resistant, Metal Free

Bullet Points

- Lightest weight Floatride Energy Foam plus mechanical cushioning design results in disruptive comfort platform that feels lighter and more dynamic than any other work shoe on the market
 - XTR™ Extra wide composite toe protects your feet at work while allowing extra toe room for comfort and movement
 - Iconic Zig Rubber Outsole in a shape that is made to cut down on weight and stiffness and provide pillowy cushioning that offers a seamless stride
 - Engineered mesh uppers with reflective overlays and dip dye treatments on midsole will turn heads at work
 - Targeted foam panels at the tongue and collar offer additional support and comfort
