Footbed: evercushion® RELIEF[†]

Sole: REBOUND - Compact PU outsole with midsole of continuously high performance EFFECT.FOAM® for excellent cushioning and energy return

Colour: wheat

Sizes: 36 - 48

STEEL SLIP RESISTANT WATERPROOF

COMPACT PU OUTSOLE

Due to its high material density, the slip resistant outsole (SRC) wears out less and prolongs thus the life of the shoes. The striking profile which is divided into different segments, offers maximum support and grip on uneven as well as wet and slippery surfaces. The wide cleats at the outer edge ensure a high level of stability

EFFECT.FOAM®

Tireless comfortable!

- 60% energy return
- 47% less impact on bones and joints*
- extremely powerful and light
- permanently high level of comfort for fatigue-free work

* Dynamic energy absorption reduces the impacts to 1.6KN, the average for safety shoes is 3.0KN.

EVERCUSHION® RELIEF[†]

This ergonomically shaped, high-performance footbed is a combination of different soft polyurethane layers. It reliably protects the heel from shock, withstands even the most strenuous daily demands and guarantees long-lasting comfort and performance.

UPPER

With the use of at least 2 mm thick nubuck leather, a premium upper material is used and offers a special wearing comfort due to its soft and velvety surface.
