

HELMET HOOD GORE-TEX PYRAD® STRETCH

WH240H/WH250H

PRODUCT DESCRIPTION

The ProGARM® WH240H/WH250H is a high-performance, detachable helmet-size hood designed to deliver exceptional protection against the thermal hazards of an electric arc. Constructed with arc-rated GORE-TEX PYRAD® Stretch technology, the hood offers a combination of durability, flexibility, and comfort while maintaining full waterproof, windproof, and breathable performance.

A choice of Hi-Vis Orange, or Hi-Vis Yellow/Navy two-tone, gives enhanced visibility in low-light conditions, supporting safety in high-risk environments. Developed for compatibility with the WJ240 and WJ250 jackets, this hood provides reliable all-weather protection without compromising comfort or freedom of movement.
