

Rostaing CRIO & CRIOBC Cryogenic Gloves & Gauntlets For Extreme Cold

- Offers resistance to cryogenic cold and accidental splashes of cryogenic liquids down to -196°C
- Designed for cryogenic handling across industry, pharmaceuticals, chemicals, laboratories, cleaning companies, dry ice blasting and the transportation, loading and unloading of cryogenic gases
- Protects against accidental splashes of ultra-cold / cryogenic liquids: liquid nitrogen, liquid oxygen, liquid helium, liquid hydrogen, liquid methane
- Category III Protection - protects against risks that could cause death or irreversible health damage
- Reinforcement on the wear zone meaning a longer service life
- Waterproof: Water repellent leather does not harden once dry

CRIO: 40cm Length

15cm cuff length with an adjustable strap – provides protection to the lower arm. Leather tanned in France.

Palm and back: Water-repellent cow leather

Cuff: Cow split leather

Membrane: Porelle®

Lining: Wool/cotton fleece and ISO AIR felt fleece

AET N°0072/011/162/07/19/0268 (IFTH LYON)

CRIOBC: Wrist Length

Fits snugly at wrist length thanks to an elasticated cuff and features an internal leather artery protector. Ideal for extreme cold outdoor conditions as it adapts to jacket sleeves.

Palm and back: Water-repellent cow leather

Membrane: Porelle®

Lining: Wool/cotton and ISO AIR felt fleece

AET N°0072/011/162/07/19/0269 (IFTH LYON)

These gloves should NOT be immersed in liquid nitrogen or in any other cryogenic liquid. Made in Morocco.

Care Instructions : The manufacturer recommends dry cleaning. Please contact us for the care sheet.

For lab or medical work, or practices requiring a more dexterous glove, we would recommend our Scilabub blue Frosters glove range.
